

### **ABSTRACT**

In one aspect, a stackable transmission line hanger is provided for securing one or more transmission lines to a supporting structure. Each such hanger includes a transmission line retention section for accommodating a transmission line and a mounting section extending from the transmission line retention section, the mounting section including a mounting hole disposed therein. The transmission line retention section includes a first leg and a second leg extending therefrom, the first and second legs allowing the hanger to accommodate various sizes of transmission lines. The first and second legs each include a locking barb configured to lock against an attachment surface.
